

# Getting Started

Last updated: March 24, 2022

## **What is Nolan Bank Feeds?**

Nolan Bank Feeds is an application that allows the importing of bank statements directly into Dynamics 365 Business Central with minimal user intervention, allowing users to focus on the more important day to day tasks.

Statements can be automatically downloaded and reconciled daily from not just multiple bank accounts worldwide, but from payments gateways such as Stripe, PayPal, and credit cards.

## **What is Dynamics 365 Business Central?**

Designed by Microsoft, Dynamics 365 Business Central streamlines your business processes into a single, comprehensive solution that connects finance, sales, service, and operations.

## **What is Nolan Cloud Services?**

Nolan Cloud Services (NCS) is the cloud platform behind Nolan Bank Feeds. Built on Microsoft Azure, it comprises several applications that can be accessed anywhere at any time using a web browser.
