# Installation

Last updated: June 6, 2022

## Installation

Before installing Company Colour Scheme, please ensure that there are no users logged into Microsoft Dynamics GP as this could adversely affect the installation process.

This process will need to be completed on all workstations on which Microsoft Dynamics GP is installed. However, if Microsoft Dynamics GP is run from a network (DYNAMICS.dic is installed in a network location), you only need to install to that location.

1. Launch the install application which will have been provided to you.
2. Follow the on-screen instructions to complete the install. The install will confirm the location of Microsoft Dynamics GP and will install the Company Colour Scheme chunk file into this directory.
3. Once the install has completed, run Microsoft Dynamics GP to load the chunk file.
