What is Student Portal?

Student Portal is a web application designed by Nolan Business Solutions. Its student and staff area allows users to view and manage their details held in Microsoft Dynamics GP and/or Microsoft Dynamics CRM. Some of the features available in Student Portal include:

- A student can request changes to their personal details, such as their preferred name or pronouns, and have their updated directly into Microsoft Dynamics CRM.

- A student can view their Microsoft Dynamics GP account statement and make partial or full online payments.

- Online payments update the account in Microsoft Dynamics GP automatically, creating payments and making applies as needed.

In addition to the student and staff area, there is also an Admin area for configuring all the Student Portal settings.
