Standalone Invoice/Cash Sale/Credit Memo

Last updated: May 28, 2024

A standalone document does not have a “*Created From*” value populated. An Invoice or Cash Sale will be still considered as standalone by SMT if they are created from an Estimate.

Standalone documents are always in the final stage of SMT calculation, the estimate stage does not apply here.

The purchase cost is sourced from following sources. Location specific sources are not applicable for this scenario.

1. COGS
2. Manual Cost
3. Item Average Price
4. Item Last Purchase Price
5. Purchase Price
