Automated Bank Feeds Integration That Supports UK Open Banking

The perfect solution for connecting NetSuite with your bank

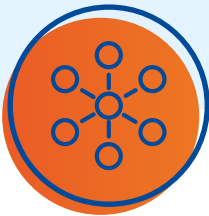

ORACLE
NetSuite

Fed up of tedious and time-consuming bank reconciliation?

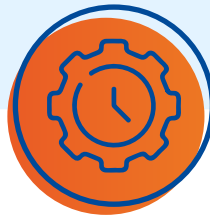

Nolan Bank Feeds integrates seamlessly with your ERP, with an intuitive user experience and smart screen layout.

With Nolan Bank Feeds you can automatically download and reconcile across multiple, global bank accounts as well as gateways such as Stripe, PayPal and credit cards!

Direct Integration Across Accounts

Integrates across multiple global banks and bank accounts and supports Open Banking.

Saves Time & Money

Eliminates the need for manual downloads by automatically importing bank transactions into your ERP.

Easy to set up

Open Banking allows for simple self-setup with a subscription, meaning no long-term commitment is needed.

Works seamlessly with Advanced Bank Reconciliation

Advanced Bank Reconciliation (ABR) is an intuitive tool that allows users to automatically match bank transactions within NetSuite.

With all the data you need at your fingertips, you can save your team time and have better visibility over your finances.
